ACM Technologies, Inc., part of the ResinTech Family of Companies, is a provider of environmentally friendly water treatment systems and services to meet pollution control and remediation needs. Complete recycling of water and dissolved metals from a large variety of waste streams is achieved by the application of ion exchange technology and off-site regeneration. This allows the customer peace of mind and eliminates any long term liabilities when dealing with regulated and non-regulated substances. ACM Technology's impeccable compliance record and spotless regulatory inspection reports reflects a commitment to its customers and the environment.

CONTACT: CARY MATTHEWS

Anachem has been providing excellent quality control laboratory services to the metal finishing industry since 1948.

We are Nadcap and A2LA approved and hold all the major prime approvals: Boeing, Airbus, Bombardier, Lockheed, Northrop, Snecma.

We aim to be a full-service laboratory meeting all your coating needs. Our services include salt spray, humidity, CASS, abrasion resistance, coating weight, adhesion, and electrical resistance testing. Our laboratory is also capable of doing metallographic testing such as IGA/EGP, microhardness and microthickness as well as hydrogen embrittlement. We also provide process solution control analysis on a very fast turnaround.

For over 60 years, **Coral Chemical Company** has been providing complete start-to-finish process efficiency solutions to the metal finishing industry. Utilizing our specialty industrial chemical products, Coral's team of pretreatment, metal working and wastewater treatment chemical experts partner with our customers to improve production, lower operational costs, reduce waste and comply with regulatory requirements.

**Pretreatment Chemicals** - Coral's industrial pretreatment chemicals include a full line of metal pretreatment products. From cleaning to conversion coatings to final rinses, Coral can supply everything needed to prepare metal and plastic products for the application of a coating.

**Metal Working Fluids** - Coral's metal working fluids include high-quality machining fluids, metal forming lubricants and rust preventatives. Whether your process is cutting, grinding, roll-forming, blanking, forming or protecting processed parts; Coral can provide the best solution for your unique challenges.

**Process Water Treatment** - Coral's total management concept for the metal finishing industry includes an extensive line of process water treatment chemicals. From neutralizing waste water to precipitating heavy metals to dissolving phosphates, our water treatment chemicals reduce sludge and clarify waste water.

**Technical Expertise That Delivers Results** - In the lab or in the field, our comprehensive technical support and persistent problem-solving capabilities result in superior parts performance and quality. Our fast turnaround on process resolutions and product delivery help our customers stay competitive and profitable.

**Simply put... Coral adds just the right chemistry for results.**

Leavitt-Pacific Insurance Brokers provides comprehensive insurance solutions to California employers seeking effective management of their property casualty insurance programs. As a member of Leavitt Group - now the nation's 7th largest privately held broker - we are effectively positioned to provide best of class resources, services and carrier concessions to our client partners.

Our proprietary 'Differentiation Platform' allows our clients to control costs, mitigate risk, and enjoy 'value added services' that make the management of their programs easy and cost efficient.

We specialize in firms with 15-500 employees across all industry sectors throughout the state as well as nationwide capabilities. Our niche market approach allows us to maximize our success within the metal finishing industry to bring quality coverage and excellent prices to your business.

**LEAVITT PACIFIC INSURANCE BROKERS (continued)****TABLE # 45**

If you are a successful business that feels they are outgrowing their current broker - and wondering, "what more is available to me" in terms of managing your firm's insurance programs....contact us for a free consultation!

CONTACT: HUNTER HERMAN

With more than 60 years of experience serving the metal finishing industry, ARC has earned an unsurpassed reputation.

Our Southern California manufacturing facility, West Coast Custom Fabricators located in Lynwood, specializes in Plating Racks, Printed Circuit Board racks and baskets, anode bags, Material Handling Carts, and Custom Metal Fabrications. We are particularly becoming more involved in Custom Metal Fabrications and have met the challenge of many recent applications.

Our engineering staff has the knowledge to design tools that will optimize your equipment's capabilities with emphasis on loading and unloading efficiency as well as minimizing potential ergonomic complications.

Once an ARC field engineers have designed the appropriate tool, they will direct the fabrication of the prototype. Upon acceptance of the prototype, they will also manage the timely production delivery per the customer's requirements. We never consider the order closed. After final delivery, you can expect to see your ARC field engineer on a regular basis to assure our customers satisfaction.

We are truly North America's largest and most qualified "Designers and Manufacturers of Fixtures for Surface Finishing." Proudly saying our products are "Made in America".

See us at Booth 8; stop in and say hello to Hunter and Mike.
